What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the manufacturer may decide to close the sub-fund under certain circumstances.

Objectives

The objective of the sub-fund is to achieve a medium-term return exceeding a bond investment in EUR.

Besides its financial objective, the sub-fund generates a tangible social impact. Funds For Good (fund distribution coordinator) pays out half of its profits to Funds For Good Impact, a socially responsible company fighting poverty through job creation, which allocates honorary loans and offers support to disadvantaged people with a business plan.

Investments in the sub-fund are without geographic, sectoral and monetary restrictions and made in equities, bonds and money market instruments or in cash.

The manager invests in the various instruments and asset classes according to their valuations. It may invest in Exchange Traded Commodities (ETC) in precious metals and up to a maximum of 10% of its net assets in UCITS and other UCIs, including Exchange Traded Funds (ETF). The manager may use derivative products and instruments (such as equity index futures, bond futures, convertible or non-convertible currency futures, options traded on regulated markets for hedging purposes or to optimise portfolio exposure). He may invest up to 10% of its holdings in Chinese A shares via Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect.

Environmental, social and governance criteria: The objective of the sub-fund is to offer sustainable investment within the meaning of Article 9 of the Sustainability Regulation and to contribute to a reduction in carbon emissions in order to achieve the long-term targets to limit global warming set by the Paris agreement. The assets of the portfolio comply with the Responsible Investment Policy of Funds For Good, available in full on www.fundsforgood.eu. This policy covers the following aspects:

1. The removal of a series of companies from its investment universe in accordance with the criteria relating to international treaties, sectors or specific activities;

2. The environmental (20% reduction in the carbon footprint of the equity portion of the portfolio compared to a benchmark equity universe), social or corporate governance criteria of companies in the portfolio;

3. A "Best-in-Universe" policy.

Benchmark: The sub-fund is actively managed, it is not limited by any component and is not subject to a benchmark index.

Intended retail investor

This product is intended for investors seeking income and capital growth with a medium term perspective (at least 3 years).

Other information

Depositary: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on www.fundsforgood.eu. The prospectus and the periodic reports are prepared for the entire fund and are available in French. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2017 and this share class in 2019.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

Recommended holding period: 3 years

Example investment: 10,000 EUR

		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	5,590 EUR	6,410 EUR
	Average return each year	-44.1 %	-13.8 %
Unfavourable	What you might get back after costs	8,830 EUR	6,720 EUR
	Average return each year	-11.7 %	-12.4 %
Moderate	What you might get back after costs	10,220 EUR	11,210 EUR
	Average return each year	2.2 %	3.9 %
Favourable	What you might get back after costs	11,850 EUR	12,600 EUR
	Average return each year	18.4 %	8.0 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: equity issuer risk, political, financial, fiscal instabilities risks, credit risk, counterparty risk, the risk of a negative impact on the securities markets in China

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

This type of scenario occurred for an investment between 2012 and 2022, by referring to a benchmark between 2012 and 2018, and to a reference class between 2018 and 2019.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FFG is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	400 EUR	680 EUR
Annual cost impact (*)	4.0 %	2.1 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.9% before costs and 3.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the product may charge (0.3% of amount invested / 30 EUR). This person will inform you of the actual distribution fee.

Composition of costs

Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.8% of the value of your investment per year. This is an estimate based on actual costs over the last year.	80 EUR
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	20 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

The conversion of part or all of the shares is free of charge.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

You should be prepared to stay invested for 3 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

You can send your complaint to the fund's management company as outlined at www.waystone.com/waystone-policies/ or under the following postal address 19, rue de Bitbourg, L-1273 Luxembourg or by e-mail complaintsLUX@waystone.com.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
